MISSION STATEMENT

Bitcaps abbreviated BCP is a new advanced generation supporting for discovering effective solutions for both Capital Accumulation Provision and Cryptocurrency Application Payment.

Its birth is so profound to bring a useful method for increasing other cryptocurrency's development owing to payment integration with them when buying Bitcaps (BCP).

Bitcaps is also considered as a kind of smart cryptocurrency with new Blockchain Technology used for secure and instant transfer of value anywhere in the world like Bitcoin.

This promises that offers users the ability to lend coins to the innovative Bitcaps trading bot which will then generates daily profits allowing users to increase their crypto holdings while getting paid daily.

BACKGROUND

Bitcaps (BCP) is a potential generation of cryptocurrency born with a lot of breakthroughs all people are expecting for solving problems of smart E-payment method.

So what exactly is Bitcaps and how does it work?

Bitcaps (BCP) is an advanced cryptocurrency created by Scrypt, POW/POS algorithm. Total number of BCP tokens is limited, only about 28985915 BCP worldwide, pre-mining about 8405915 BCP with miners put in 5 different countries in the world. The small number of tokens aims at supporting for low inflation and increasing Bitcaps Price when demand is high while its volume is not changeable.

Bitcaps used Blockchain Technology is absolutely independent from any party. Bitcaps has open peer-to-peer network anyone willing to join is welcome to become a user of the cryptocurrency.

All transactions are recorded live, transparent, and spread across multiple servers. It is impossible to hack, change or falsify Bitcaps. Because of the Blockchain technology multiple servers must be hacked at the same time. Therefore, Bitcaps is a safe and independent currency.

Bitcaps network is decentralized without having any central servers. Transactions among Bitcaps users are conducted through

the Internet. BCP transaction privacy is protected by secure cryptographic algorithm.

Bitcaps aims to become one of the most useful cryptocurrencies in the world, like Bitcoin, Ethereum, etc.
